

## Food Security Network of Newfoundland and Labrador

# MEMBERSHIP APPLICATION

(for New and Renewing Members)

Membership fees help support the on-going activities of the Network. Your interest and commitment is critical to our working towards food security for all.

Membership in FSN is good for one year, renewable on the date you joined. Although we are not able to issue charitable receipts, FSN will also be grateful for any cash and in-kind donations beyond the cost of the membership fee.

### Membership Fees

*The following fees are suggested but should not be a barrier to your membership. You are in the best position to judge what you can pay. If you are in a position to contribute more, however, we welcome your support. In all cases, your commitment, time and interest are more important than the amount of your membership fee.*

# Food Security Network Membership Survey

FSN needs a number of volunteer committees and working groups to carry out its activities and projects. These include fundraising, promotion, membership, annual events such as the World Food Day celebration, and community-based initiatives around food security. We also need, from time to time, ad hoc working groups to explore and develop plans for new tools for information sharing, advocacy, special events, partnerships, etc.

Please review the volunteer opportunities below for different ways to get involved. What FSN can achieve is directly related to the interest and commitment of our members and volunteers.
